Endless  
Whitening Program

# A healthy, radiant smile can be yours.

---

The Endless Whitening Program is a great way to keep your smile looking its brightest for years to come. As long as you keep your regular hygiene appointments (as recommended), we'll give you free whitening refills — for life.

## How do I join?

First, consult with your dental professional to see if you are a whitening candidate. Then, purchase a whitening procedure (in-office or take-home) to join the program.

## How does it work?

Once you enroll, be sure to maintain your regular hygiene appointments as prescribed by your dental professional, and we'll give you a free whitening syringe after each appointment.

## What is the cost?

You are required to purchase an initial whitening treatment, including custom-made whitening trays. After that, there is no additional cost for the ongoing touch-up syringes.

## What if I miss my appointment?

If you miss a regularly scheduled appointment, your membership may be cancelled. To re-enroll, ask your dental professional for a new plan (which may include an additional fee).

**Schedule an appointment  
during your next visit.**
